

Market Report of Methanol in China

□ Introduction

- Methanol' s Chinese name and English name, physic-chemical characteristics, main application, quality standard, security date, storage and transportation

□ Summarize of Methanol Market At Home and Abroad

- Recent total production capacity, total output, total producers, technology level, consumption amount

□ Production Status of Methanol

- Production capacity analysis of main producers
- Output analysis of main producers
- Contact details of main producers

□ Projects Being Constructed or Planned For Construction

- Projects being constructed or planned for construction in the forthcoming five years in China
- The owner name of projects being constructed or planned for construction
- Equipment capacity of projects being constructed or planned for construction
- Equipment Location of projects being constructed or planned for construction
- Starting estimated time and commissioning estimated time of projects being constructed or planned for construction
- Equipment technology route of projects being constructed or planned for construction
- Equipment project schedule of projects being constructed or planned for construction

❑ Consumption Status、 Consumption Constitution and Market Demand**Projection**

- Consumption scope analysis of Methanol
- Consumption analysis of Methanol
- Reasons for changing Methanol consumption
- Market demand projection in future 5 years in China
- Recent(in the forthcoming two years) consumption projection
- Middle period (after two more years) consumption projection

❑ Imports and Exports Statistic

- Import and export volume
- Export amount
- Import and export tax regulations, tax rate
- Import and export amount of Methanol
- Import and export aggregate amount of Methanol
- Import and export average price of Methanol

❑ Market Price Analysis

- Recent price vary of Methanol
- Reasons for changing Methanol price

❑ Balance Between Supply and Demand Analysis

- Balance between supply and demand analysis
- Balance between supply and demand projection

❑ Conclusion and Suggestion

- Conclusive opinions of Methanol
- Developmental suggestion of Methanol
